AN ORDINANCE OF THE CITY OF FORT WAYNE, INDIANA, AUTHORIZING THE ISSUANCE AND SALE OF BONDS OF THE CITY FOR THE PURPOSE OF PROVIDING FUNDS TO BE APPLIED ON THE COST OF IMPROVING THE MUNICIPAL AIRPORT KNOWN AS BAER FIELD, AND EXPENSES INCURRED IN CONNECTION THEREWITH.

WHEREAS, by the adoption by the Common Council of General Ordinance No. 1466 on April 9, 1929, and approval of the same by the Mayor on April 11, 1929, the City of Fort Wayne has heretofore created a Department of Aviation under the control of the Board of Aviation Commissioners pursuant to Chapter 57 of the Acts of 1929, which act was repealed by Chapter 190 of the Acts of 1945, the latter act providing that thereafter all proceedings in such a case should be had pursuant to said Chapter 190 of the Acts of 1945; and

WHEREAS, the Board of Aviation Commissioners of the Department of Aviation of the City of Fort Wayne has found that it would be for the best interests of said City to provide for improving the municipal airport known as Baer Field, including the construction and equipment of hangars, supply and care of aircraft, due to the substantial increase in the number of civil aircraft now owned and operated in the Fort Wayne area, and to provide for additional aircraft that will be delivered to said area in the near future, and has determined that the estimated cost of said project will be in the approximate amount of Six Hundred Thousand Dollars (\$600,000); and

WHEREAS, funds in the amount of One Hundred Thousand Dollars (\$100,000) are available for application on the cost of said project, and the Board of Aviation Commissioners has filed a request for an appropriation in the additional amount of Five Hundred Thousand Dollars (\$500,000) on account of said project, which request has been approved by the City Controller, with the recommendation that the funds necessary to cover said appropriation be obtained by the issuance and sale of general obligation bonds of the City; and WHEREAS, a petition has been filed under the provisions of Sec. 64-313 Burns Indiana Statutes (1951 Repl.), by more than fifty (50) owners of taxable real estate in the City of Fort Wayne, requesting the Common Council to issue bonds of the City in an amount not exceeding Five Hundred Thousand Dollars (\$500,000), for the purpose of procuring funds to be applied on said project, which petition the Council finds to be in due form of law and sufficient under the provisions of said act; and

WHEREAS, the Council now finds that said improvements are necessary, will be for the best interests of said City, and will be of general benefit to the entire city and its citizens; now therefore,

BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF FORT WAYNE, INDIANA:

The bonds of this issue maturing on August 1, 1970, and thereafter, viz. bonds numbered 546 to 2600 inclusive, shall be redeemable at the option of the City, in whole or in part, on February 1, 1970, or any interest payment date thereafter, in inverse order of maturity, and by lot within maturities, at face value, together with the following premiums:

5 pct. if redeemed on February 1, 1970, or thereafter on or before August 1, 1974;

1 pct. if redeemed on February 1, 1988, or thereafter prior to maturity; plus in each case accrued interest to the date fixed for redemption. Notice of such redemption shall be published at least one time in a newspaper or financial journal of general circulation published in each of the following named cities: Fort Wayne, Indiana; Indianapolis, Indiana; Chicago, Illinois; Borough of Manhattan, City and State of New York. The notice shall specify the date and place of redemption, and the serial numbers and dates of maturity of the bonds called for redemption. The place of redemption shall be determined by the City. Interest on the bonds so called for redemption shall cease on the redemption date fixed in such notice, if sufficient funds are available at the place of redemption to pay the redemption price on the date so named and thereafter when presented for redemption. Coincidentally with the payment of the redemption price, the bonds so called for redemption shall be surrendered for cancellation, together with the unmatured interest coupons appurtenant thereto.

SECTION 4. Said bonds shall be signed in the name of the City by the Mayor, countersigned by the City Controller, and attested by the City Clerk who shall affix the seal of said City to each of said bonds. The interest coupons attached to said bonds shall be executed by placing thereon the facsimile signature of the Mayor and City Controller, and said officials, by the signing of said bonds, shall adopt as and for their own proper signatures appearing on said coupons. In case any officer whose signature appears on the bonds or coupons, shall cease to be such officer before the delivery of such bonds, such signature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until the delivery thereof. Said bonds shall have all of the qualities and incidents of negotiable instruments under the negotiable instruments law of the State of Indiana.

Said bonds shall be negotiable by delivery unless registered. Upon presentation of any of the bonds at the office of the City Controller, said City Controller shall register said bonds as to principal without charge or expense to the holder. Such registry shall be noted on each bond so presented, after which no transfer thereof shall be valid unless made by the registered owner in person or by his attorney duly authorized and similarly noted on such bond, but bonds so registered may be discharged from registry by being in like manner retransferred to bearer, after which they shall be transferable by delivery but may again be registered as before. The registration of any bond shall not affect the negotiability of the interest coupons attached thereto, but such coupons shall continue to pass by delivery merely and shall remain payable to bearer.

The principal of and interest on all of said bonds shall be payable from and secured by an irrevocable pledge of, and shall constitute a charge upon all the net revenues (herein defined as gross revenues after deduction only for the payment of the reasonable expenses of operation, repair and maintenance) of the sewage works of the City of Fort Wayne, including the improvements and extensions constructed or acquired by the use of the proceeds of this bond and the issue of which it is a part, and all improvements and extensions thereto and replacements thereof subsequently constructed or acquired, subject, however, to the prior payment from said Sinking Fund of the principal of and interest on certain Sewage Works Revenue Bonds, dated August 1, 1938, now outstanding in the principal amount of Eight Hundred Twenty-seven Thousand Dollars (\$827,000), and certain Sewage Works Revenue Refunding Bonds, dated August 1, 1941, now outstanding in the principal amount of Four Hundred Eighty-nine Thousand Dollars (\$489,000), which outstanding bonds are of equal priority and are payable annually over a period ending on August 1, 1968, in accordance with the terms thereof. of said issue are payable solely from the Sewage Works Sinking Fund (hereinafter created by Ordinance No. 1939 adopted July 23, 1939), to be provided from the net revenues (herein defined as gross revenues after deduction only for the payment of the reasonable expenses of operation, repair and maintenance) of the sewage works of the City of Fort Wayne, including the improvements and extensions constructed or acquired by the use of the proceeds of this bond and the issue of which it is a part, and all improvements and extensions thereto and replacements thereof subsequently constructed or acquired, subject, however, to the prior payment from said Sinking Fund of the principal of and interest on certain Sewage Works Revenue Bonds, dated August 1, 1938, now outstanding in the principal amount of Eight Hundred Twenty-seven Thousand Dollars (\$827,000), and certain Sewage Works Revenue Refunding Bonds, dated August 1, 1941, now outstanding in the principal amount of Four Hundred Eighty-nine Thousand Dollars (\$489,000), which outstanding bonds are of equal priority and are payable annually over a period ending on August 1, 1968, in accordance with the terms thereof. This bond shall not constitute an indebtedness of the City of Fort Wayne within the meaning of the provisions and limitations of the constitution of the State of Indiana, and the City shall not be obligated to pay this bond or the interest thereon except from said special fund provided from said net revenues.

Subject to the prior servicing of the outstanding revenue bonds payable from the City's sewage works, the City of Fort Wayne irrevocably pledges the entire net revenues of said sewage works, to the extent necessary for that purpose, to the prompt payment of the principal and interest of the bonds authorized by said ordinance, of which this is one, and any bonds hereafter issued on a parity therewith. The City covenants that it will cause to be fixed, maintained and collected such rates and charges for service rendered by said works as are sufficient in each year for the payment of the proper and reasonable expenses of operation, repair and maintenance of said works, to provide for proper depreciation, and for the payment of the sums required to be paid into said Sinking Fund under the provisions of said Act and said ordinance; in the event the City, or the proper officers thereof, shall fail or refuse to so fix, maintain and collect such rates or charges, or if there be a default in the payment of the interest on or principal of this bond, the holder of this bond shall have all of the rights and remedies provided for in said Chapter 61, Acts of 1932 (Special Session), and the acts amendatory thereof and supplemental thereto, including the right to have a receiver appointed to administer the works and to charge and collect rates sufficient to provide for the payment of this bond and the interest thereon.

The City further covenants that it will set aside and pay into its Sewage Works Sinking Fund a sufficient amount of the net revenues of said works to meet (a) the interest on all bonds payable from said Fund as such interest shall fall due, (b) the necessary fiscal agency charges for paying the bonds and interest, (c) the principal of all bonds payable from said Fund as the same is payable, and (d) an additional amount as a margin of safety and for the payment of premiums on bonds redeemed by call or purchase, which margin, together with any unused surplus of such margin carried forward from the preceding year, shall equal not less than ten per cent (10 pct.) of all other amounts so required to be paid into said Sinking Fund.

The City Controller is hereby authorized and directed to have said bonds and coupons prepared, and the Mayor, City Controller and City Clerk are hereby authorized and directed to execute said bonds and the interest coupons to be attached thereto, in the form and number herein provided. After said bonds have been properly executed the City Controller shall deliver the same to the Treasurer of the City of Fort Wayne and shall take his receipt therefor, and upon the consummation of the sale of said bonds the City Controller shall certify to the Treasurer the amount which the purchaser is to pay for the same; thereupon the Treasurer shall be authorized to receive from the purchaser the amount so certified by the Controller, and to deliver the bonds to such purchaser. The amount to be certified by the Controller and collected by the Treasurer shall be the full amount which the purchaser has agreed to pay therefor, which shall not be less than the face value of said bonds, plus accrued interest from the date thereof, to the date of delivery. The bonds herein authorized, when fully paid for and delivered to the purchaser, shall be binding upon the City of Fort Wayne, and shall be payable out of the revenues of the City's sewage works to be set aside into the Sewage Works Sinking Fund as herein provided, and the proceeds derived from the sale of said bonds shall be and are hereby set aside for application on the cost of construction of said improvements and extensions to the City's sewage works hereinbefore referred to, and the expenses necessarily incurred in connection therewith and on account or in connection with the issuance of said bonds. The proper officers of the City are hereby directed to do all acts and things which may be necessary to carry out the provisions of this ordinance.

SECTION 7. Prior to the sale of said bonds the City Controller shall cause to be published a notice of such sale once each week for two (2) weeks in the Fort Wayne News-Sentinel and Fort Wayne Journal-Gazette, newspapers of general circulation published in the City of Fort Wayne, Indiana, and one time in a newspaper or financial journal published in the

City of Indianapolis, the last publication to be at least seven (7) days prior to the date fixed for said sale. Said notice may also be published in a financial journal published in the City of New York, New York, in the discretion of the City Controller. The bond sale notice shall state the time and place of sale, the character and amount of the bonds, the maximum rate of interest thereon, the maturities thereof, the purpose for which the bonds are being issued, the terms and conditions upon which bids will be received and the sale made, and such other information as the City Controller and the attorney employed by the City shall deem advisable. Said notice shall provide, among other things, that each bid shall be accompanied by a certified or cashier's check in the amount of Twenty-five Thousand Dollars (\$25,000) to guarantee performance on the part of the bidder, and that in the event the successful bidder shall fail to execute to accept delivery of the bonds and pay for the same at the time fixed in the notice of sale, then said check and the proceeds thereof shall be the property of the City and shall be considered as its liquidated damages on account of such default.

All bids for said bonds shall be sealed and shall be presented to the Controller at his office. Bidders for said bonds shall be required to name the rate or rates of interest which the bonds are to bear, not exceeding the maximum rate hereinbefore fixed. Such interest rate or rates shall be in multiples of one-eighth (1/8) of one per cent (1 pct.), and not more than three (3) different interest rates shall be named by each bidder. A rate may be repeated without being considered a different rate. Bids specifying more than one interest rate shall also specify the amount and maturities of the bonds bearing each rate, but all bonds maturing on the same date shall bear the same rate. The bonds shall be awarded by the City Controller to the highest qualified bidder who has submitted his bid in accordance with the terms of this ordinance and the notice of sale. The highest bidder will be the one who offers the lowest net interest cost to the City, to be determined by computing the total interest on all of the bonds to their maturities and deducting therefrom the premium bid, if any. No bid for less than the par value of said bonds, including accrued interest to the date of delivery, shall be considered. The right to reject any and all bids shall be reserved. In the event an acceptable bid is not received, the City Controller shall be authorized to continue the sale from day to day for a period of not to exceed thirty (30) days without readvertisement, but during such continuation no bid shall be accepted which is lower than the highest bid offered at the advertised sale.

Prior to the delivery of said bonds the Controller shall be authorized to obtain a legal opinion as to the validity of the bonds from Ross McCord Ice & Miller, acting as bond counsel for the City, and to furnish such opinion to the purchasers of the bonds at the time of delivery thereof. The fee of such bond counsel shall be considered as a part of the cost of the project on account of which said bonds are issued and shall be paid out of the proceeds of said bonds.

SECTION 8. The accrued interest and premium received at the time of the delivery of the bonds, if any, shall be deposited in the Sewage Works Sinking Fund heretofore created by Ordinance No. 1939, adopted on July 26, 1932. All funds deposited to the credit of said Sewage Works Sinking Fund or Sewage Works Construction Account shall be deposited, held and secured or invested in accordance with the laws of the State of Indiana relating to the depositing, holding and securing or investing of public funds. The depository or depositories for said Sewage Works Sinking Fund shall be a bank which shall be a member of the Federal Reserve System and of the Federal Deposit Insurance Corporation, or like organizations having similar powers and duties. The funds in said special account or accounts shall be expended only for the purpose of paying the cost of the improvements and extensions to the works, as defined in Sec. 4 of said Chapter 61 of the Acts of 1933, as amended, or as otherwise required by said Act. Any balance or balances remaining unexpended in such special account or accounts at the completion of the works which are not required to meet unpaid obligations incurred in connection with such project, shall be paid into the Sewage Works Sinking Fund and shall be used solely for the purposes of said fund.

Subject to the approval of the Board of Public Works, the City Controller is hereby authorized to invest in direct obligations of the United States Government such portion of the funds in said Construction Account as shall not be required for immediate use, provided that no such investment shall be made at a cost in excess of the par value of the securities purchased, and that none of the funds shall be invested in any securities the maturity date of which is later than the time when such funds are required to be available for the purposes thereof, or if the time when such funds will be required for use cannot be determined, such investment shall be made only in securities having a maturity date of one (1) year or less from the date of purchase. Such investment shall be made in strict accordance with the provisions of Chapter 9 of the Acts of the Indiana General Assembly for the year 1945, and any interest or other accretions derived from any such investments shall become a part of the funds invested. In conformity with the provisions of the governing statutes, the holders of said bonds shall be entitled to a lien on the proceeds of said bonds until the same are applied on the project on account of which said bonds were issued.

SECTION 9. The special fund designated "Sewage Works Sinking Fund" created by Ordinance No. 1939, adopted on July 26, 1932, for the payment of the Sewage Works Revenue Bonds authorized by said ordinance, and also designated by Ordinance No. 2653, adopted on May 27, 1945, as the fund for the payment of the Sewage Works Revenue Refunding Bonds authorized by that ordinance, is hereby designated as the special fund for the payment of the interest on and principal of the revenue bonds authorized by this ordinance and the payment of any fiscal agency charges in connection with the payment of the bonds and interest coupons. Said fund shall be continued until all of the bonds issued under said prior ordinances and this ordinance have been paid. There shall be set aside and paid into said Sinking Fund monthly, as available, or oftener if necessary, a sufficient amount of the net revenues of said sewage works for the payment of (a) the interest on the Sewage Works Revenue Bonds and Sewage Works Revenue Refunding Bonds hereinbefore referred to, the interest on the bonds herein authorized, and the interest on any bonds heretofore issued ranking on a parity therewith, as an interest shall fall due; (b) the necessary fiscal agency charges for paying said bonds and interest; (c) the principal of the Sewage Works Revenue Bonds and Sewage Works Revenue Refunding Bonds hereinbefore referred to, the principal of the bonds herein authorized, and the principal of any bonds heretofore issued ranking on a parity therewith, as they fall due; and (d) an additional amount as a margin of safety and for the payment of premiums upon bonds redeemed by call or purchase, which margin, together with the surplus of such margin carried from the preceding year, shall be used for the purposes hereinbefore referred to.

SECTION 10. In the event all required payments into the Sewage Works Sinking Fund have been met to date and there has been accumulated as a reserve in said Sewage Works Sinking Fund over and above said payments an amount equal to the sum of the principal and interest of the then outstanding bonds which will be payable during the then next succeeding twelve (12) calendar months, and there has been accumulated and reserved funds in an amount sufficient for operation, repair and maintenance of the works for the then next succeeding twelve (12) calendar months, and for depreciation, then any excess revenues of the works available may be placed in a Sewage Works Improvement Fund and be used to pay the cost of improvements, betterments, extensions, enlargements and additions to the works. No revenues of the works shall be deposited in or credited to the Sewage Works Improvement Fund which will interfere with the requirements of the Sewage Works Sinking Fund, the accumulation of the required reserve therein, or with the requirements as to reserving funds for the operation, maintenance and repair of the works, and for depreciation. All or any portion of the funds accumulated and reserved for operation, repair and maintenance for the then next succeeding twelve (12) calendar months shall be transferred to the Sewage Works Sinking Fund if necessary to prevent a default

or all other amounts so required to be paid into said Sinking Fund; provided, however, that the Sewage Works Revenue Bonds and Sewage Works Revenue Refunding Bonds hereinbefore referred to shall have priority in respect to payment of interest and principal from the funds in said Sewage Works Sinking Fund. The term "net revenues" as used in this section shall be construed to mean the revenues remaining after the reasonable cost of operation, maintenance and repair have been paid. The monthly payments into said Sinking Fund shall be in an amount equal to at least one-twelfth (1/12th) of the amount required for such payments during the then next succeeding twelve (12) calendar months and shall continue until such time as said fund shall contain an amount sufficient to pay all of the herein authorized bonds then outstanding, together with the interest thereon to the dates of maturity thereof. In addition to said required monthly payments into the Sewage Works Sinking Fund, all of the net revenues of said sewage works not used in making said required sinking fund payments shall be set aside and paid into said Sinking Fund monthly, as available, until there has been accumulated in said Sewage Works Sinking Fund over and above said required payments, an amount equal to the sum of the principal and interest on all then outstanding bonds which will be payable during the then next succeeding twelve (12) calendar months. Thereafter, said fund shall be maintained at such level, and additional amounts of net revenues shall be deposited in said Fund to the extent necessary to maintain such level.

In no event shall any part of the Sewage Works Sinking Fund be used in calling bonds for redemption prior to maturity, except to the extent that the amount then in said Sinking Fund exceeds the amount required to pay the principal of the bonds payable therefrom which will mature within a period of twelve (12) calendar months next following the date of such redemption, together with all interest on the bonds payable in said period. Any such excess of funds above said required level may also be used in purchasing outstanding bonds at a price less than the then applicable redemption price, if first approved by the Board of Public Works. Moneys in said Sinking Fund shall not be used for any other purpose whatsoever except as provided in this ordinance.

SECTION 11. In the event all required payments into the Sewage Works Sinking Fund have been met to date and there has been accumulated as a reserve in said Sewage Works Sinking Fund over and above said payments an amount equal to the sum of the principal and interest of the then outstanding bonds which will be payable during the then next succeeding twelve (12) calendar months, and there has been accumulated and reserved funds in an amount sufficient for operation, repair and maintenance of the works for the then next succeeding twelve (12) calendar months, and for depreciation, then any excess revenues of the works available may be placed in a Sewage Works Improvement Fund and be used to pay the cost of improvements, betterments, extensions, enlargements and additions to the works. No revenues of the works shall be deposited in or credited to the Sewage Works Improvement Fund which will interfere with the requirements of the Sewage Works Sinking Fund, the accumulation of the required reserve therein, or with the requirements as to reserving funds for the operation, maintenance and repair of the works, and for depreciation. All or any portion of the funds accumulated and reserved for operation, repair and maintenance for the then next succeeding twelve (12) calendar months shall be transferred to the Sewage Works Sinking Fund if necessary to prevent a default

in the payment of principal or interest on the bonds payable from said Sinking Fund.

SECTION 12. The City shall, by ordinance of the Common Council, maintain just and equitable rates or charges for the use of and the services rendered by said works, to be paid by the owner of each and every lot, parcel of real estate or building that is connected with and uses said sewage works by or through any part of the sewerage system of the City, or that in any way uses or is served by such works. Such rates or charges shall be sufficient in each year for the payment of the proper and reasonable expenses of operation, repair and maintenance of the works, and the payment of the amounts required to be paid into the Sewage Works Sinking Fund by said governing Act. Such rates or charges shall, if necessary, be changed and readjusted from time to time so that the revenues therefrom shall always be sufficient to meet the expenses of operation, repair and maintenance, depreciation and the requirements of the Sewage Works Sinking Fund. The rates or charges so established shall apply to any and all use of such works by and service rendered to the City and all departments thereof, and shall be paid semi-annually by the City or the various departments thereof as the charges accrue. No increase in the existing rates and charges being necessary, said existing rates and charges are hereby adopted as the estimate of rates and charges within the meaning of Section 5 of the governing Act, as amended.

SECTION 1. The City reserves the right to authorize and issue additional bonds payable out of the revenues of the City for the purpose of financing certain improvements and extensions to the sewerage works, in an amount not exceeding One Million Nine Hundred Thousand Dollars (\$1,900,000), ranking on a parity with the bonds authorized by this ordinance. The provisions of this ordinance and of the governing Act, shall also be construed to create extensions for which plans and specifications are now being prepared; provided, a trust in the portion of the net revenues however, that the principal thereof shall be set apart and paid to the Sewage Works Revenue Fund for the purpose of financing the uses and purposes of said fund as in and to the provisions of this ordinance set forth. The holders of said bonds shall be payable prior to the bonds set forth in the year 1961, and the maximum annual interest and principal requirements of the provisions of the governing Act hereinbefore authorized by this ordinance, and hereafter referred to as "Sewage Works Revenue Bonds," shall not exceed the sum of Two Hundred Eighty-nine Thousand Dollars (\$289,000), in addition to said principal interest on any of the bonds herein authorized for a period of thirty (30) years, the City reserves the right, in the event of default in respect to the payment of interest on any of the bonds herein authorized, to authorize and issue additional bonds, payable out of the revenues of the City, ranking on a parity with the bonds authorized by this ordinance, for the purpose of financing the cost of future additions, extensions and improvements to the sewerage works, subject to the following conditions:

(a) The interest on and principal of all of said outstanding Sewage Works Revenue Bonds shall have been paid to the City in accordance with the terms thereof.

(b) As of the date of issuance of such Bonds, the balance in the Sewage Works Revenue Fund shall equal not less than the principal and interest requirements of the then outstanding Bonds payable during the then next succeeding twelve (12) calendar months.

(c) The net revenues of the sewerage works in the fiscal year immediately preceding the issuance of any such Bonds, ranking on a parity with the bonds authorized by this ordinance, shall be not less than one hundred twenty-five per cent (125 pct.) of the maximum annual interest and principal requirements of the then outstanding Bonds and the additional Bonds proposed to be issued; or, prior to the issuance of said Bonds, the sewerage rates and charges shall be increased sufficiently so that said increase in rates and charges applied to the previous fiscal year's operations would have produced net revenues for said year equal to not less than one hundred twenty-five per cent (125 pct.) of the maximum annual interest and principal requirements of the then outstanding Bonds and the additional Bonds proposed to be issued.

(d) For purposes of this subsection, the record of the sewerage works shall be analyzed and all showings shall be prepared and certified by a certified public accountant employed by the City for that purpose who shall certify that he has no interest in said additions, extensions or improvements, or the financing thereof other than to analyze said records and prepare said showings.

(e) The interest on said additional Bonds shall be payable semi-annually on the first day of October, 1959, at the hour of 9:00 o'clock A.M., C.S.T.

SECTION 14. For the purpose of further safeguarding the interests of the holders of the bonds herein authorized, it is specifically provided as follows:

(a) All contracts for the construction of sewerage works and extensions to the sewerage works shall be let after due advertisement as required by laws of the State of Indiana, and all contractors shall be required to furnish surety bonds in an amount equal to one hundred per cent (100 pct.) of the amount of such contracts, to insure the completion of said contracts in accordance with their terms and such contractors shall also be required to carry such employers' liability and public liability insurance as are required under the laws of the State of Indiana in the case of public contracts, and shall be governed in all respects by the laws of the State of Indiana relating to public contracts.

(b) The works shall be constructed under the supervision and subject to the approval of the Engineer, Townships, and cities, or such other competent engineer as shall be designated by the Board of Public Works. All estimates for work done or material furnished shall first be checked by the engineer and approved by the Board of Public Works.

(c) The City shall at all times maintain its sewerage works in good condition and operate the same in an efficient manner and at a reasonable cost.

(d) So long as any of the bonds herein authorized are outstanding, the City shall maintain insurance on the insurable parts of said works of a kind and in an amount such as would normally be carried by private companies engaged in a similar type of business. All insurance shall be placed with responsible insurance companies qualified to do business under the laws of the State of Indiana. Insurance proceeds shall be used in replacing or repairing the property destroyed or damaged, and shall be treated and applied as net revenues of the works.

(e) So long as any of the bonds are outstanding, the City shall not mortgage, pledge or otherwise encumber such works, or any part thereof, nor shall it sell, lease or otherwise dispose of any portion thereof except replaced equipment which may become worn out or obsolete.

(f) Except as otherwise provided in Sec. 12 of this ordinance, so long as any of the bonds herein authorized are outstanding, no additional bonds or other obligations pledging any portion of the revenues of said sewerage works shall be authorized, executed or issued by the City except such as shall be made subordinate and junior in all respects to the bonds herein authorized, unless all of the bonds herein authorized are redeemed and required coincidentally with the delivery of such additional bonds or other obligations, or funds sufficient to effect such redemption are available and set aside for that purpose at the time of issuance of such additional bonds.

(g) The City shall take all actions or proceedings necessary and proper to require connection of all property where liquid and solid waste, sewage, night soil, or industrial waste is produced, with available sanitary sewers. The City shall, in so far as possible, cause all such sanitary sewers to be connected with said sewerage works.

(h) The provisions of this ordinance shall constitute a contract between the City of Fort Wayne and the holders of the sewerage works revenue bonds herein authorized, and after the issuance of said bonds this ordinance shall not be repealed or amended in any respect which will adversely affect the rights of the holders of said bonds, nor shall the Common Council or other body of the City adopt any law, ordinance or resolution which in any way adversely affects the rights of such holders so long as any of said bonds or the interest thereon remain outstanding.

Continued On Page 27.

SECTION 15. All ordinances and parts of ordinances in conflict herewith are hereby repealed, but none of the provisions of this ordinance shall be so construed as adversely affecting the rights of holders of said outstanding Sewage Works Revenue Bonds, issued under date of August 1, 1938, and Sewage Works Revenue Refunding Bonds, issued under date of August 1, 1941.
